Building on Nature's Strength for over 30 years...

We are world leaders in heavy solid log homes and timber frame construction and have developed over 600 standard log house designs and wooden houses – ranging in size from a 20m^2 octagonal rondawel to double and triple storey homes.

Over 1,000 DIY kits for T&B Log Homes have been exported to some 30 countries as well as throughout South Africa. T&B Log Homes have supplied kits and in many cases supervised the construction of some 30 hotels, beach resorts, mountain lodges, fishing and golf estates in countries worldwide. Our extensive experience gives us the expertise to offer clients a complete turnkey project, including the design, building, finishing and equipping of the timber resorts or wooden houses.

Our extensive in-house resources offer an uncompromising level of cost efficiency while meeting any project's strategic objectives – from residential homes and housing estates to Resort Developments in some of the world's most challenging locations. Our meticulous attention to detail in any project (no matter the scale or scope) as well as exceptional design, forward planning and transparency have resulted in literally thousands of successful projects worldwide.

Our professional services are geared to suit each client, individual or corporate:

- Construction
- Engineering
- CNC Pre-manufacturing
- Sustainable Technology
- Project Management
- Transport & Logistics
- Finance and Administration
- Procurement
- Architectural Design and Draughting
- Sales and Marketing
- *Kidbuddie: Jungle Gym and Playground Specialists*
